1. Business segments are classified based on business operations within the Group.
2. Description of business segments:
(1) Catalog: Catalog Business consists of mail order services of daily goods and related services.
(2) Single-item Mail Order: Single- item Mail Order Business consists of "specialized type" mail order services focusing on specific items, such as foods, cosmetics and supplements.
(3) Advanced Finance: Advanced Finance Business consists of consumer loan services and secured loan services.
(4) BOT: BOT (Outsourcing) Business consists of commission businesses on inserting leaflets for other companies into the Group's merchandise catalogs or sending them together with the Group's merchandise.
(5) Property: Rent of real estate, remodeling and development of real estate, etc.
(6) Other: Other Business consists of wholesale businesses, etc.
3. No unallocated operating expenses are included in "Elimination/Corporate."
4. Change of business segments

The Group had previously maintained seven business segments, namely: "Catalog," "Single-item Mail Order," "Advanced Finance," "BOT," "Karemu," "Property" and "Other." The Group included its operations under the "Karemu" business segment into the "Other" business segment, and reduced the number of its business segments to six in the fiscal year under review, after concluding that the Karemu segment lost its significance following the withdrawal from exhibition sales operations in June 2008. As a result of this change, in the Other segment, net sales increased by $¥ 3,544$ million and operating income decreased by $¥ 264$ million in the current fiscal year.
5. Changes in valuation basis and valuation method for significant assets

Goods in inventory owned for the purpose of regular sales had previously been accounted for using the moving average lower-of-cost-or-market method. Real estate for sale and real estate for sale in process, held for the purpose of regular sales, had been accounted for using the identified cost method. However, starting in the first quarter of the current fiscal year, goods in inventory owned for the purpose described above are assessed using the moving average cost method (the book value reduction method based on a decline in profitability for amounts stated in balance sheets), and real estate for sale and real estate for sale in process owned for that purpose is assessed using the identified cost method (book value reduction method based on a decline in profitability for the amounts stated in balance sheets), in accordance with the application of the "Accounting Standard for Measurement of Inventories" (ASBJ Statement No. 9 issued on July 5, 2006). The changeover caused operating income for the "Property" business segment in the fiscal year under review to decline by $¥ 3,388$ million.
6. Application of the "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements"
Starting in the first quarter of the current fiscal year, the "Practical Solution on the Unification of Accounting Policies Applied to Foreign Subsidiaries for Consolidated Financial Statements" (ASBJ Practical Issues Task Force No. 18 issued on May 17, 2006) is applied and consolidated financial results have been revised as necessary. Its application has no effect on quarterly consolidated financial statements.
